- Approved programme of vocational higher education Business Informatics

Soproni SZC Handler Nándor Technikum *2011 - 2012*

- Vocational Training after Graduation University of Sopron Webmaster and Media Management

WORK EXPERIENCE

Frontend Software Engineer | Swiss Learning Hub AG *JAN 2024 -*

- Planning and implementing a web-based migration of an enterprise-level Windows application **Evento**, using **web components, Context API, State Machine** and web standards to ensure an agnostic way of implementation.
- Maintaining and developing **Evento's web-based feature application** written in **Angular**.
- Researching, documenting **micro frontends architechture** and **web components** based application solutions.

Frontend Developer | IBM iX DACH *OCT 2020 - JUL 2023*

- Orchestrated the migration of a client's internal business planning tool to a modern tech stack, employing **Angular**, **TypeScript**, **RxJS** and modern **JavaScript** to enhance functionality and user experience.
- Led a pivotal revamp of a legacy **SAP CX** CMS system, significantly improving codebase scalability and extensibility of a **B2B** application, while integrating new features focused on advanced web accessibility, ensuring full **WCAG 2.0+ AA+** compliance for a U.S.-based client.
- Spearheaded a **Vue.js** and **TypeScript microfrontend** project on **Adobe Experience Manager (AEM)** for Europe's leading automotive company, creating highly reusable **web components** to standardize features across the platform.
- Acted as a **mentor** within the company, sharing expertise on cutting-edge tech and best practices in software development, fostering team growth and skill advancement
